

## Sunnyfields course: Warnings to riders

**1. You must not turn into the immediate path of vehicles on the A515, or you will be DQ'd – and the marshal on the junction has the final say on what is deemed dangerous.**

See pictures overleaf for 'traffic light' warnings.

**Green:** If a vehicle is in this area when you join the A515, that is fine.

**Amber:** If a slow-moving vehicle is in this area when you join the A515 and it is not a HGV/wagon/tanker or similar, that is fine. If it is moving fast or is a HGV/wagon/tanker or similar you will be DQ'd

**Red:** If a vehicle is in this area when you join the A515, you will be DQ'd.

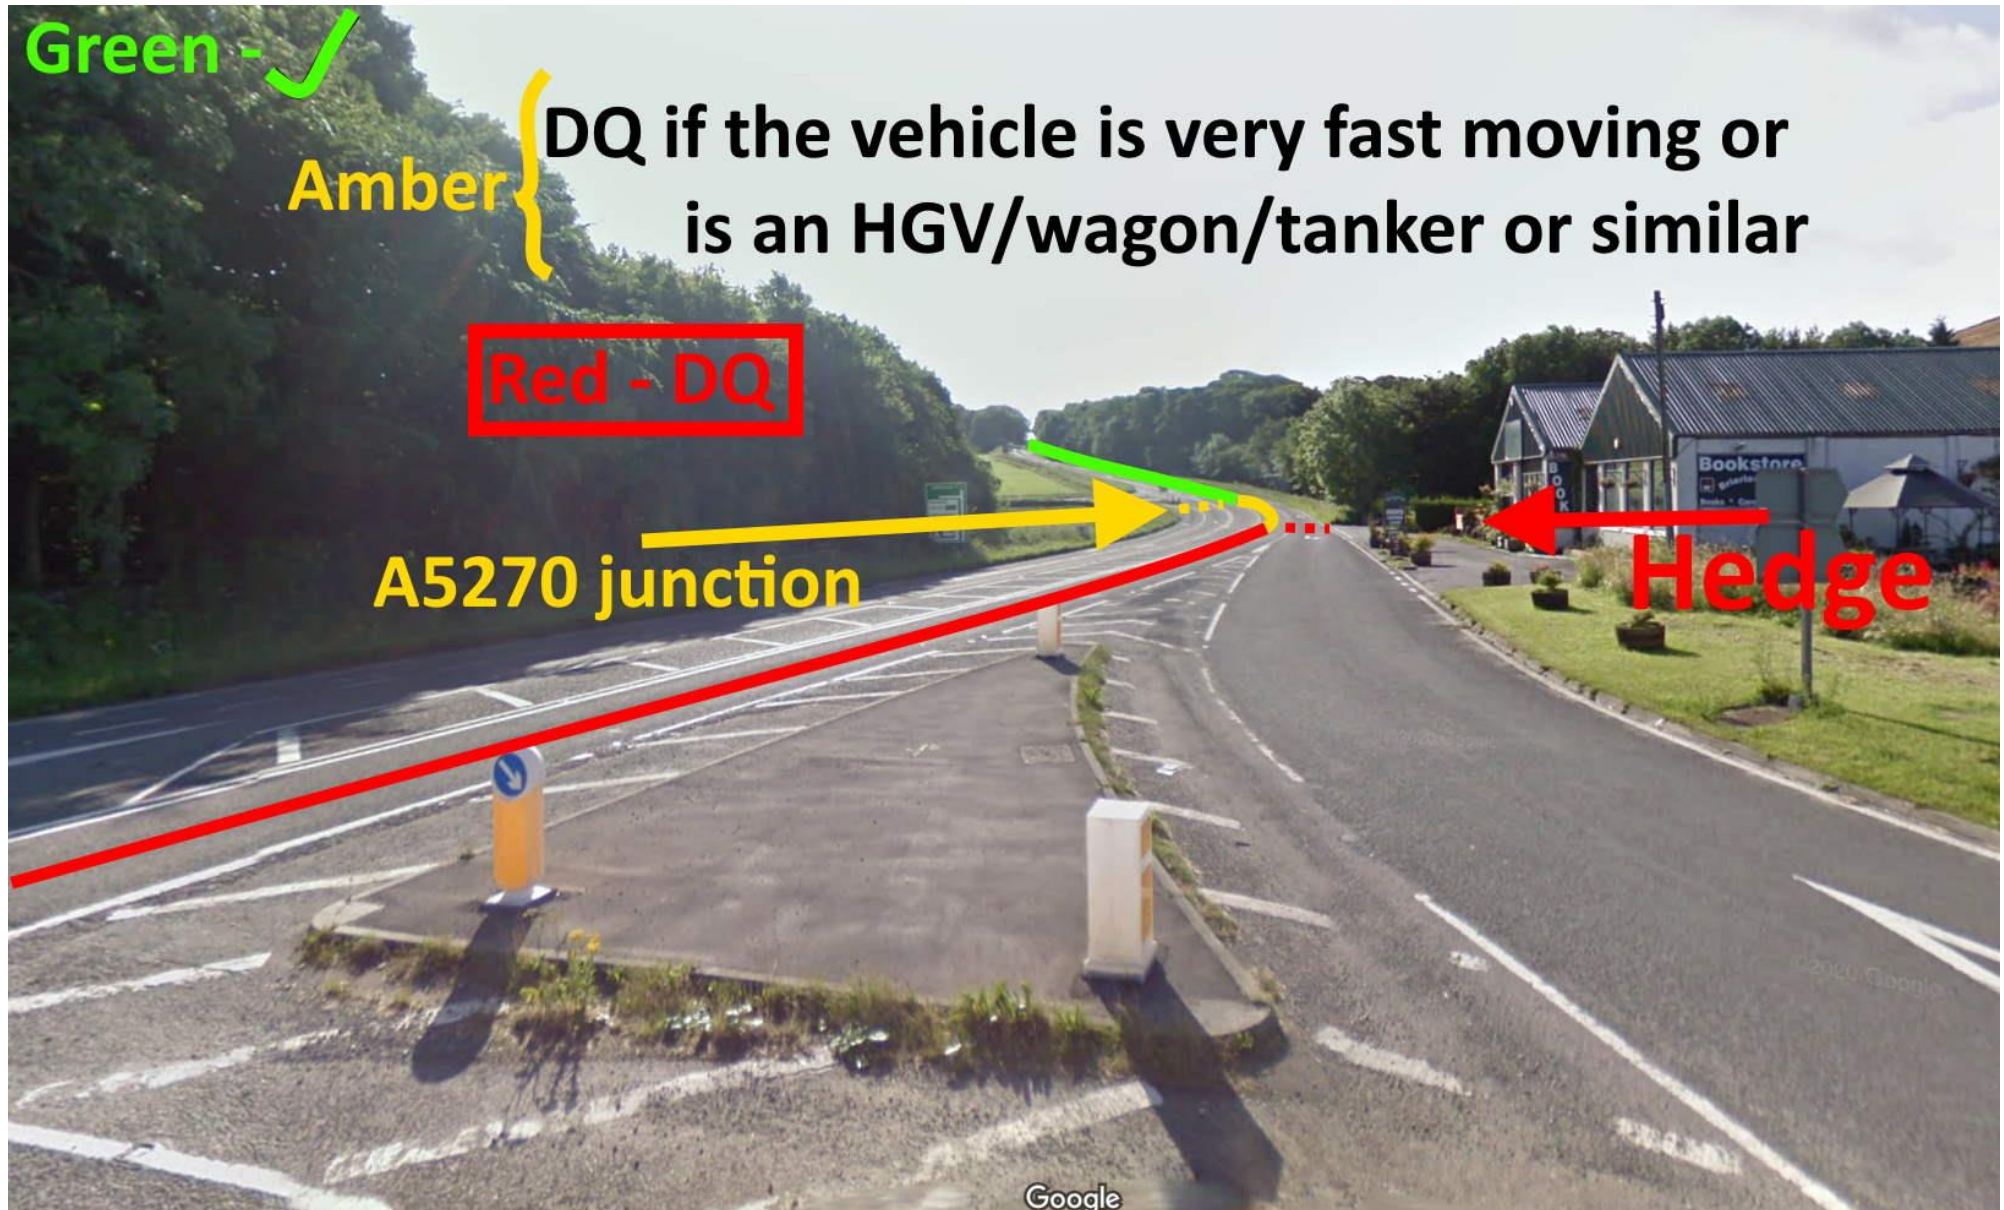

\* Caution: When you join the A515, the lane is narrow – scrub-off speed before you turn left!

**2. Take care when turning left from Heathfield Nook Rd into Burlow Rd (after the bus shelter).**

The line of sight up Burlow Rd is obstructed by trees.

There is road furniture in Burlow Rd immediately after you turn left.
